WHAT IS EMERGE SUMMIT?

Emerge Summit is the Gulf Coast's premiere annual conference that brings together the brightest young talent from all industries and experience levels. The event features nationally acclaimed speakers, local luminaries, and change-makers to lead discussions and learning opportunities across a variety of key global issues such as economic and leadership development, company culture, personal brand management, social impact, diversity, education, and more.

In 2019, Emerge Summit drew 400+ registrants from across the Gulf Coast, stretching from Texas to Florida. Conference-goers say it is an essential opportunity to engage in productive dialogues covering critical issues that impact their personal and professional lives every day.

The 4th Annual Emerge Summit will take place in New Orleans, December 2-3, 2021.

EXPERIENCE EMERGE SUMMIT

The 2-day conference has featured some of the most well-known, engaging influencers including *Adulthood* author Kelly Williams Brown, *Twitch* founder Kevin Lin, music artist & reality TV star Big Freedia, LinkedIn Top Voice Goldie Chan, and *Fyre Festival* documentary contributor Cal Wells. As well, it has presented global research from trusted experts including Yale University's *The Science of Well-Being* founder Dr. Laurie Santos, and Deloitte's *Global Millennial Survey* co-creator Christine Selph.

This year, Emerge Summit offers related content, *and* a unique look into issues that impact our economy in greater scale.

For decades industry has evolved practices to address vital issues such as impact budgeting, hiring competitiveness, environmental sustainability, investments in technology, and more. Today we find that new research discoveries, the pandemic, and global sentiment have significantly quickened the pace of these changes, and elevated them as more urgent than ever before.

Emerge Summit will highlight these trends and projections, and provide insight into a shifting economic landscape for years to come.
